

## The TAC Performance Improvement Committee Invites All TAC Members to Attend a Virtual Quality Improvement Seminar

### *The Quebec Trauma Network: Description of an Inclusive Trauma Care Continuum Designation and Evaluation*

**Presenters:** Mélanie Lalancette-Hébert, PhD, Scientific Coordinator  
Catherine Gonthier, MSc, Scientific Professional  
Amina Belcaid, MSc, Biostatistician  
Time-sensitive Care Trajectories Unit  
Institut national d'excellence en santé et en services sociaux (INESSS)

**Date/Time:** March 31, 2023 12 to 1 PM EST

#### Background

To assure timely, high-quality care, the trauma network in Quebec is designed as an integrated system of prehospital care, acute care centers, from the most specialized to the most basic, consortium, expertise and rehabilitation centers.

To obtain and maintain their level of designation, trauma centers must meet a series of quality standards established by the *Institut national d'excellence en santé et en services sociaux* (INESSS).

#### Learning Objectives

- ◆ Better understand the trauma continuum in Quebec
- ◆ Learn about the methods used to assess compliance with standards and monitor the implementation process
- ◆ Learn about process of care, outcome and low-value practice indicators used in the trauma centre evaluation
